Da'naxda'xw/Awaetlala Hereditary Chiefs

I have worked for our nation for 25 years, I have had the privilege to be a part of rebuilding our village of Tsatsisnukwomi, see our solar project through to almost completion, and finally get word from FNHA that we will see the completion of our Health Holding station, as well as other smaller projects. I have also witnessed the transformation of our leadership, the coming together of our families through our Chiefs, and the dedication of our staff to the new Chiefs Council and the future of our nation through their leadership.

Having said all that, I believe it is time for me to move on, while I am very honoured to have had this job for so long, I can honestly say that my heart is no longer in it. Having lost my father, brother, and sister to cancer, and see my mother going through her treatments for cancer, my brother go through his cancer situation, and having a breast cancer scare myself, I need to step back and try to enjoy my life, go to a job with less stress, and one that is not so time consuming. I have worked hard for our nation for 25 years, I am asking the Chiefs to consider this letter as my resignation and two weeks notice. Of course, during this transition I will be available to help with questions or anything else that comes up, I know that any one of my staff can step in as interim administrator until a new one is hired.
